

I want to work with you

to create the best possible environment in the Forest of Dean for disabled people and people with mental health challenges.

Hi, I'm Penny, I am the Barnwood Trust Strategic Development Manager working in the Forest of Dean. I'm here to support organisations to develop their community connections and look for opportunities to make positive changes for those with disabilities and mental health challenges that live in this beautiful area.

If you have any ideas you think would help to make this change, then I would love to hear from you. Do please get in touch with me via the details below.
